CETRA™

OPEN PLAN TO RECEPTION

Option-rich Cetra lets you use monolithic panels, or mix materials on sectional panels, for striking elegance in high visibility areas. Mix fabric, metal, glass and wood in almost any combination to create a strong, sophisticated statement in your space.

Cetra has it all—along with the planning convenience of systems furniture and the design flexibility of a wide range of panels, finishes and trim. With the rigidity of steel frames, you can stack panels to the ceiling for visual and acoustical privacy. Infuse the work area with natural light by adding glass tiles without compromising privacy.
