PAIRINGS®
Designed by pL-D

WORK IS CHANGING IN DRAMATIC WAYS.

Real estate is condensing. Technology is evolving. Work styles are more varied than ever before. Combined, these changes present a number of challenges to office planning. That's why pL-D and Kimball Office teamed together to create a more versatile lounge-based system—one that provides power access, acoustical separation, and functionality for open or enclosed spaces.

Pairings works as a simple lounge group, or as a robust system capable of transforming an open space into a "third space." Configured with other products and media, the collection offers expansive options for both working and meeting.

Made with comfort and flexibility in mind, Pairings is a family of components that can be crafted together to create formal or informal settings in support of today's work-play-gather environments.

PAIRED TO PERFECTION

Some things are simply better together. Comfort and style. Flexibility and convenience. Choice and harmony. You can have it all with Pairings—a diverse collection that accommodates people in corporate, education, or hospitality environments.

Ready for a setting individuals and small teams will flock to? Add privacy panels to create the comfort of a lounge area with the seclusion of an individual workspace. A tech-friendly collection ideal for impromptu meetings or a moment alone, panels can be configured on one, two, or three sides of a seat or sofa.

Also shown
Task Seating: **Wish** / Benching, Occasional Table and Mobile Screen: **KORE**

Since work and life are blending into one, Pairings takes inspiration from both. Its soft feel and refined aesthetic make it possible to create a welcoming setting where people feel right at home.

Accessible. Discrete. That's the kind of power you need—and the kind you get with Pairings. Power can be configured directly into a seat or table, so individuals or small teams can stay seamlessly connected. Power can also be integrated into a divider wall to create an ancillary workspace when configured with a work shelf.

Also shown
Stool: **Lusso** / Media Cart: **KORE** / Pull-up Table: **Bloom**

Alone or in conjunction with other Kimball products, Pairings can divide a space, multiplying functionality in open plan environments.

Conference Table and Mobile Markerboard: **KORE** / Chair: **Lusso** / Ottoman: **Dwell** /
Pull-up Table: **Bloom**

When you add accessories and privacy panels, a chair can be much more than a chair. By adding a tech or tablet arm, users can orient the worksurface in a way that's comfortable and fit for the task.

Also shown
Ottoman: **Dwell**

Tiered perch seating provides an area for impromptu casual gathering. Keep it simple or add a divider wall with work shelves to create a working lounge area. With optional power built in, you are always connected and fully functional.

THOUGHT STARTERS

Dual Nature (pictured above and below)
Support individual work styles on multiple levels by creating separate meeting areas on either side of a divider wall. Add a work shelf or a portable surface to divider walls for additional functionality.

Long and Lean
Privacy panels create an isolated retreat in an open setting. A tablet arm option and power add a functional dynamic.

Lounge Around
A basic lounge setting emphasizes comfort during face-to-face gatherings.

Casual Vibe
Form a social space for private meetings or casual socializing.

THOUGHT STARTERS

Divide And Conquer (pictured above and below)
A blend of seating supports individual work and seamless collaboration. By integrating a divider wall, one meeting space becomes many.

Mix it Up
Individual seats can be arranged in multiple ways with the support of a divider wall. Adding a tech arm provides a personal, adjustable worksurface.

Space and Time
Components connect to create a welcoming space within an open setting.

On the Shelf
A divider wall takes on a new dynamic with a work shelf for casual, standing meetings.

THOUGHT STARTERS

Define the Space (pictured above and below)
Mix and match fabrics and incorporate technology for a fun yet functional informal gathering area.

All in the Open
Low, Mid and Corner sections easily come together to create configurations that fit any open plan setting.

Pull it Together
Perch seating and divider walls fit together nicely to create separate, yet joined areas within a space.

Alter your Style
Need a creative solution for a small area of space? Stagger layers of seating for endless options in any space; large or small.
