

Kimball® Office

---

**Furniture has always been  
made to fit our bodies.  
Why hasn't it been designed  
to fit our minds?**

---

Hum is an open plan solution designed for individual focus, collaborative tasks, and everything in between.

Surfaces: Mocha Cherry  
Wave See Me™ Screen/Terraces: Designer White  
Chassis: Titanium  
Seating: Approach/Ash White/Essence White

# Environments that work the way minds work.

An aerial view of a modern office environment. The office is composed of several white, curved desks arranged in a circular pattern. In the top section, a person with curly hair is sitting at a desk, typing on a white keyboard. In the middle section, two people are leaning over a desk, looking at a laptop. In the bottom section, three people are gathered around a desk, looking at a large document. The desks are equipped with various office supplies like keyboards, mice, and papers. The overall aesthetic is clean and professional.

**Configurations  
for Every  
Workplace.**

**From One  
to Many.**

# Organize Your Mind.

## **Hum for individual and focused work.**

Hum understands how people work and what they need to work better. Hum echoes the way our minds organize, coordinate, and collaborate. A better experience for minds at work means better performance.

---

## Go To Zones.

---

There is no right or wrong way to work. People need spaces that reflect their own working style. Go To zones are adaptable multi-use spaces that allow everyone to organize their mind in their own way. Your workspace reflects you, and the way you want to work.

Surfaces/Terraces/Chassis: Designer White  
Central Screens: Golden Rod

---

### Go To Now.

#### Work in the moment.

We all need a place to work. A place for focused concentration, complete absorption. A place where what we need is where we need it.

---

### Personal Workspace.

The unique convex shape of Hum's height-adjustable worksurface subtly defines a natural edge to your space while encouraging hosting. Collaborate without crowding.

---

### Go To Soon.

#### **Park your thoughts.**

But what's next, and where is it? We need places where we can park our thoughts, pick them up again, group them, and prioritize working materials.

---

### Go To Later.

#### **Important but not urgent.**

Retrieving the right idea at the right time is based on a system of triggers and cues. We need to offload our working memory in places where it can be left a little longer.

---

### Box Terrace.

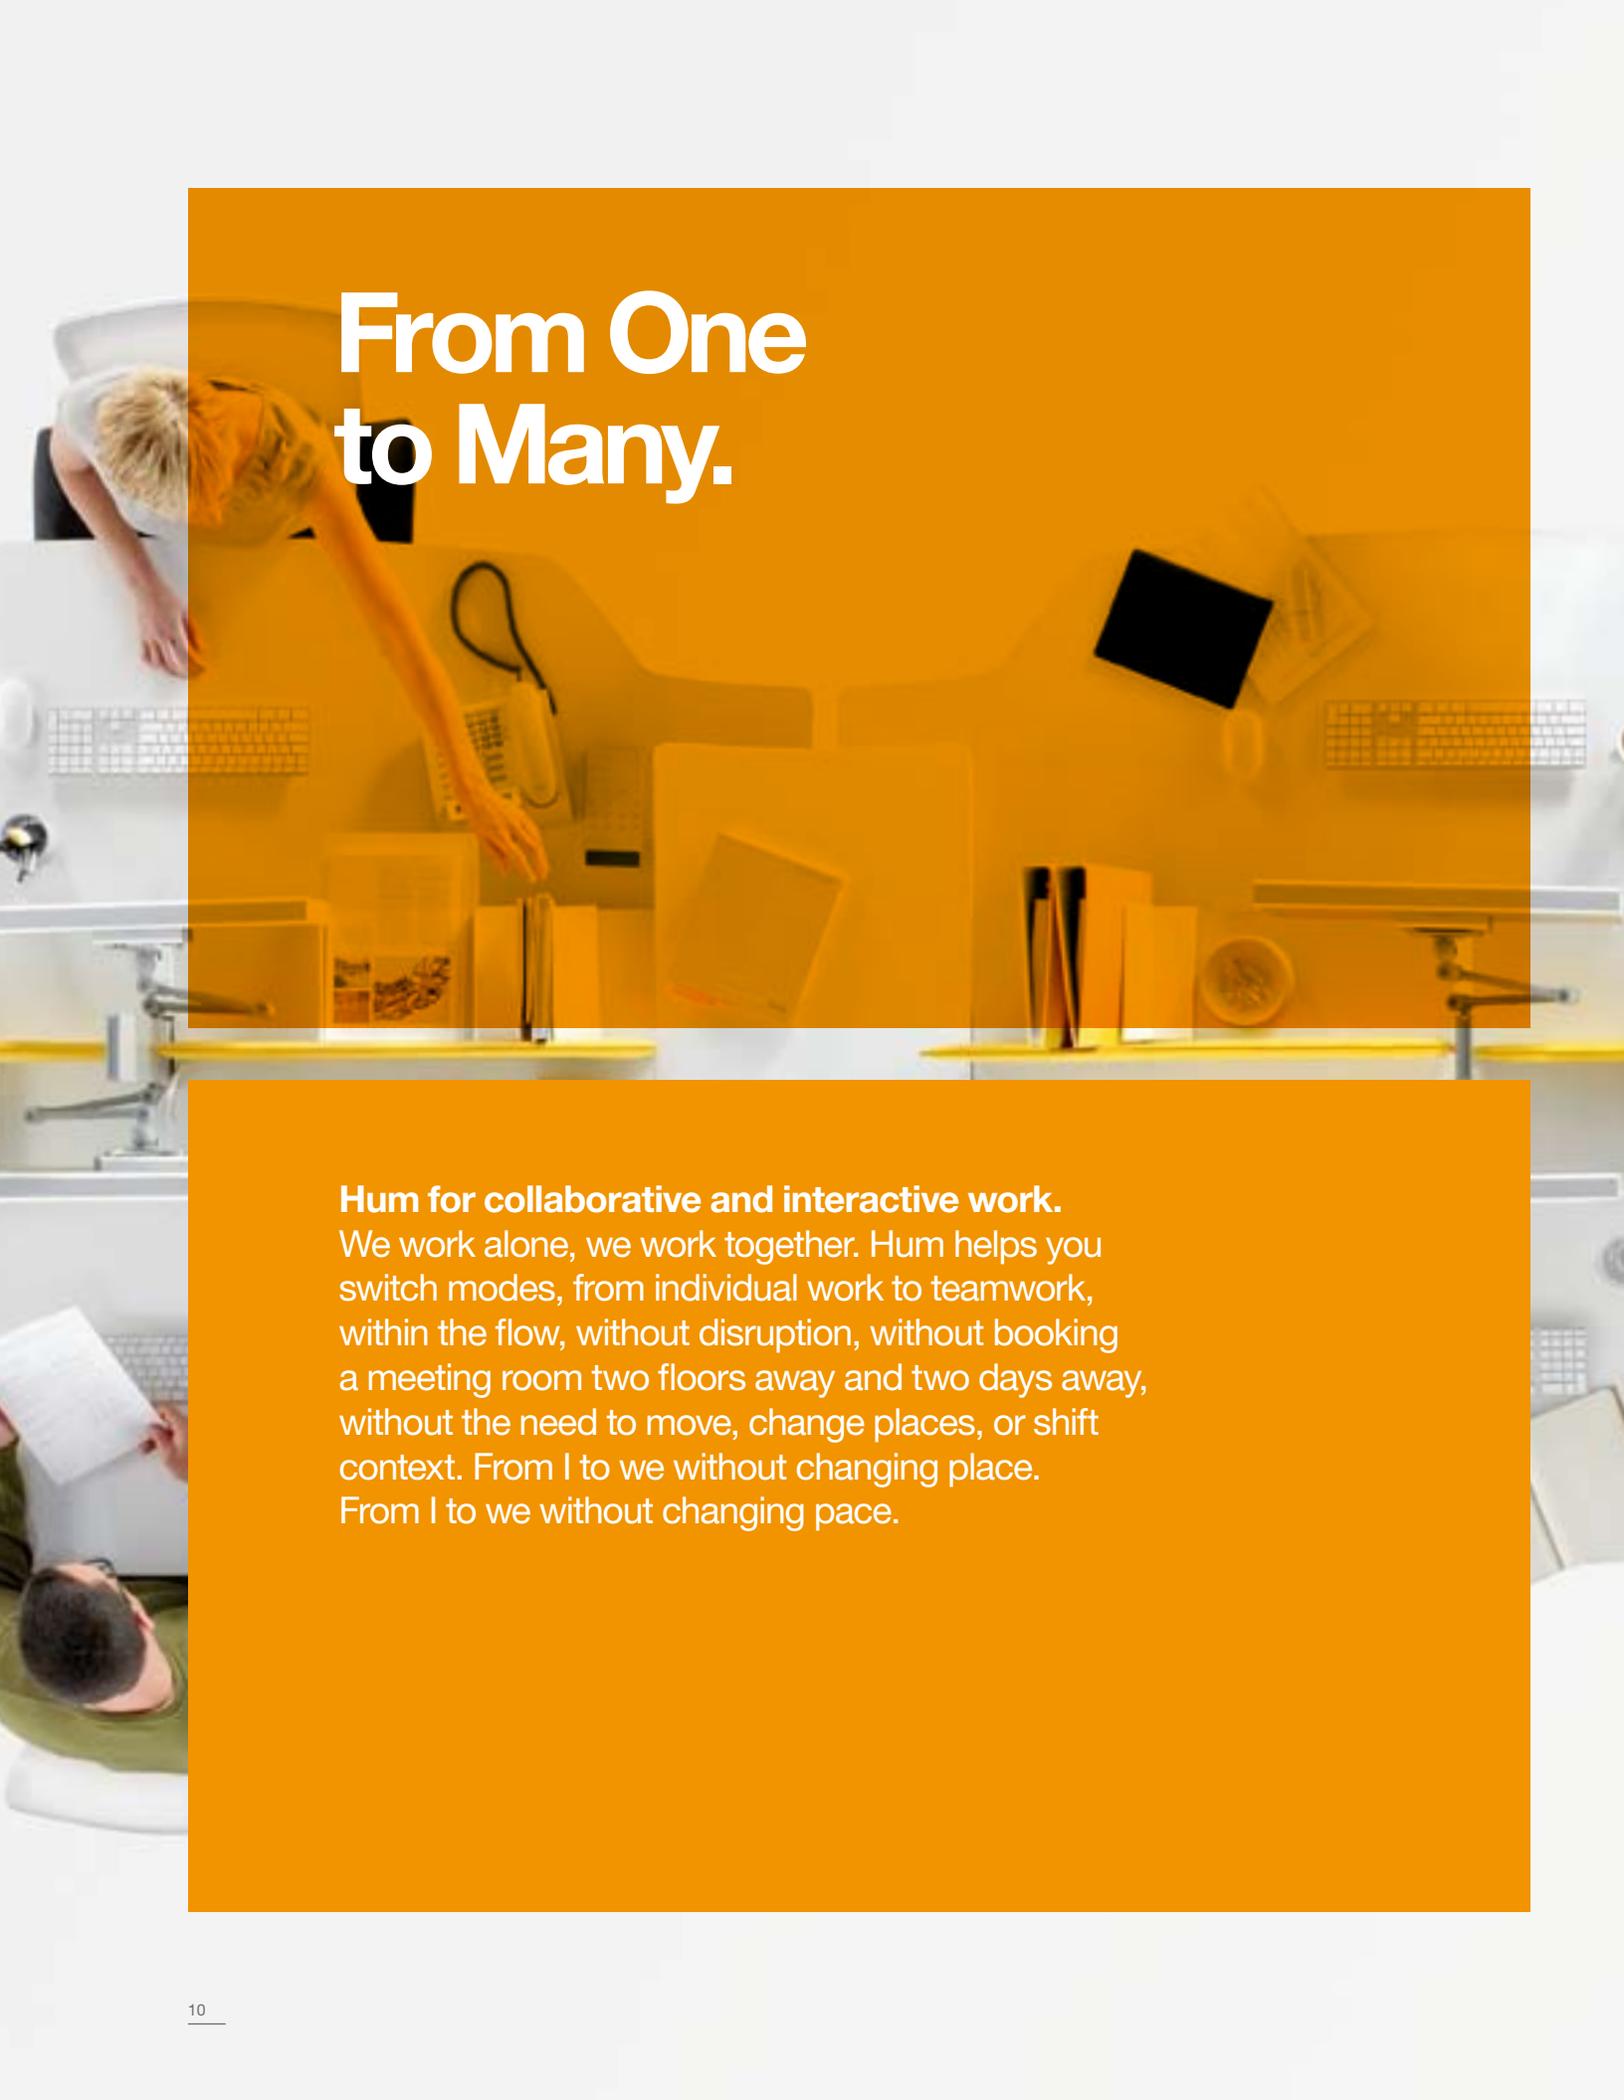

Hum's box terrace creates a private alcove for the worksurface. Depending on work types, the box terrace offers more parking space for projects, or more private space for personal items. On top, inside, or underneath, whatever works for you.

---

### Elevated Terrace.

Hum's elevated terrace lifts reference items up off the primary work surface. Work is visible and available but not in the way. Make it private. Make it public. You choose.

A woman with blonde hair is seen from behind, sitting at a white desk in a modern office. She is looking at a laptop screen. The desk is cluttered with various items including a keyboard, a mouse, a telephone, and several papers. The office has a clean, minimalist aesthetic with white walls and desks. The lighting is bright and even.

# From One to Many.

## **Hum for collaborative and interactive work.**

We work alone, we work together. Hum helps you switch modes, from individual work to teamwork, within the flow, without disruption, without booking a meeting room two floors away and two days away, without the need to move, change places, or shift context. From I to we without changing place. From I to we without changing pace.

---

## Designed for Interaction.

---

Hum is the sound of a team working well, individually and together. Hum is the sound of productivity. Think, engage, focus, connect, make ideas flow.

---

### See Me™ Screens.

#### Make signals visible.

The See Me screen allows you to see and be seen. It helps filter distractions for better focus, yet connect easily with your closest colleagues. Complete focus, open collaboration, and everything in between.

---

### See Me Screen

The See Me screen is designed in response to social signals. It creates a visual boundary that filters distractions without isolation. Its openness enables instant observation and communication with others when our eyes shift focus.

---

### Meet Me™ Spaces.

#### Meetings in the moment.

Well timed, meetings in the moment keep work moving forward. The Meet Me space allows instant and effective meetings without moving. That means more uptime, better flow, and minimal disturbance.

---

#### Meet Me Space

The Meet Me space provides a meeting place for the mini meetings that occur throughout the day, reducing the need to leave the workspace. Start a chain reaction.

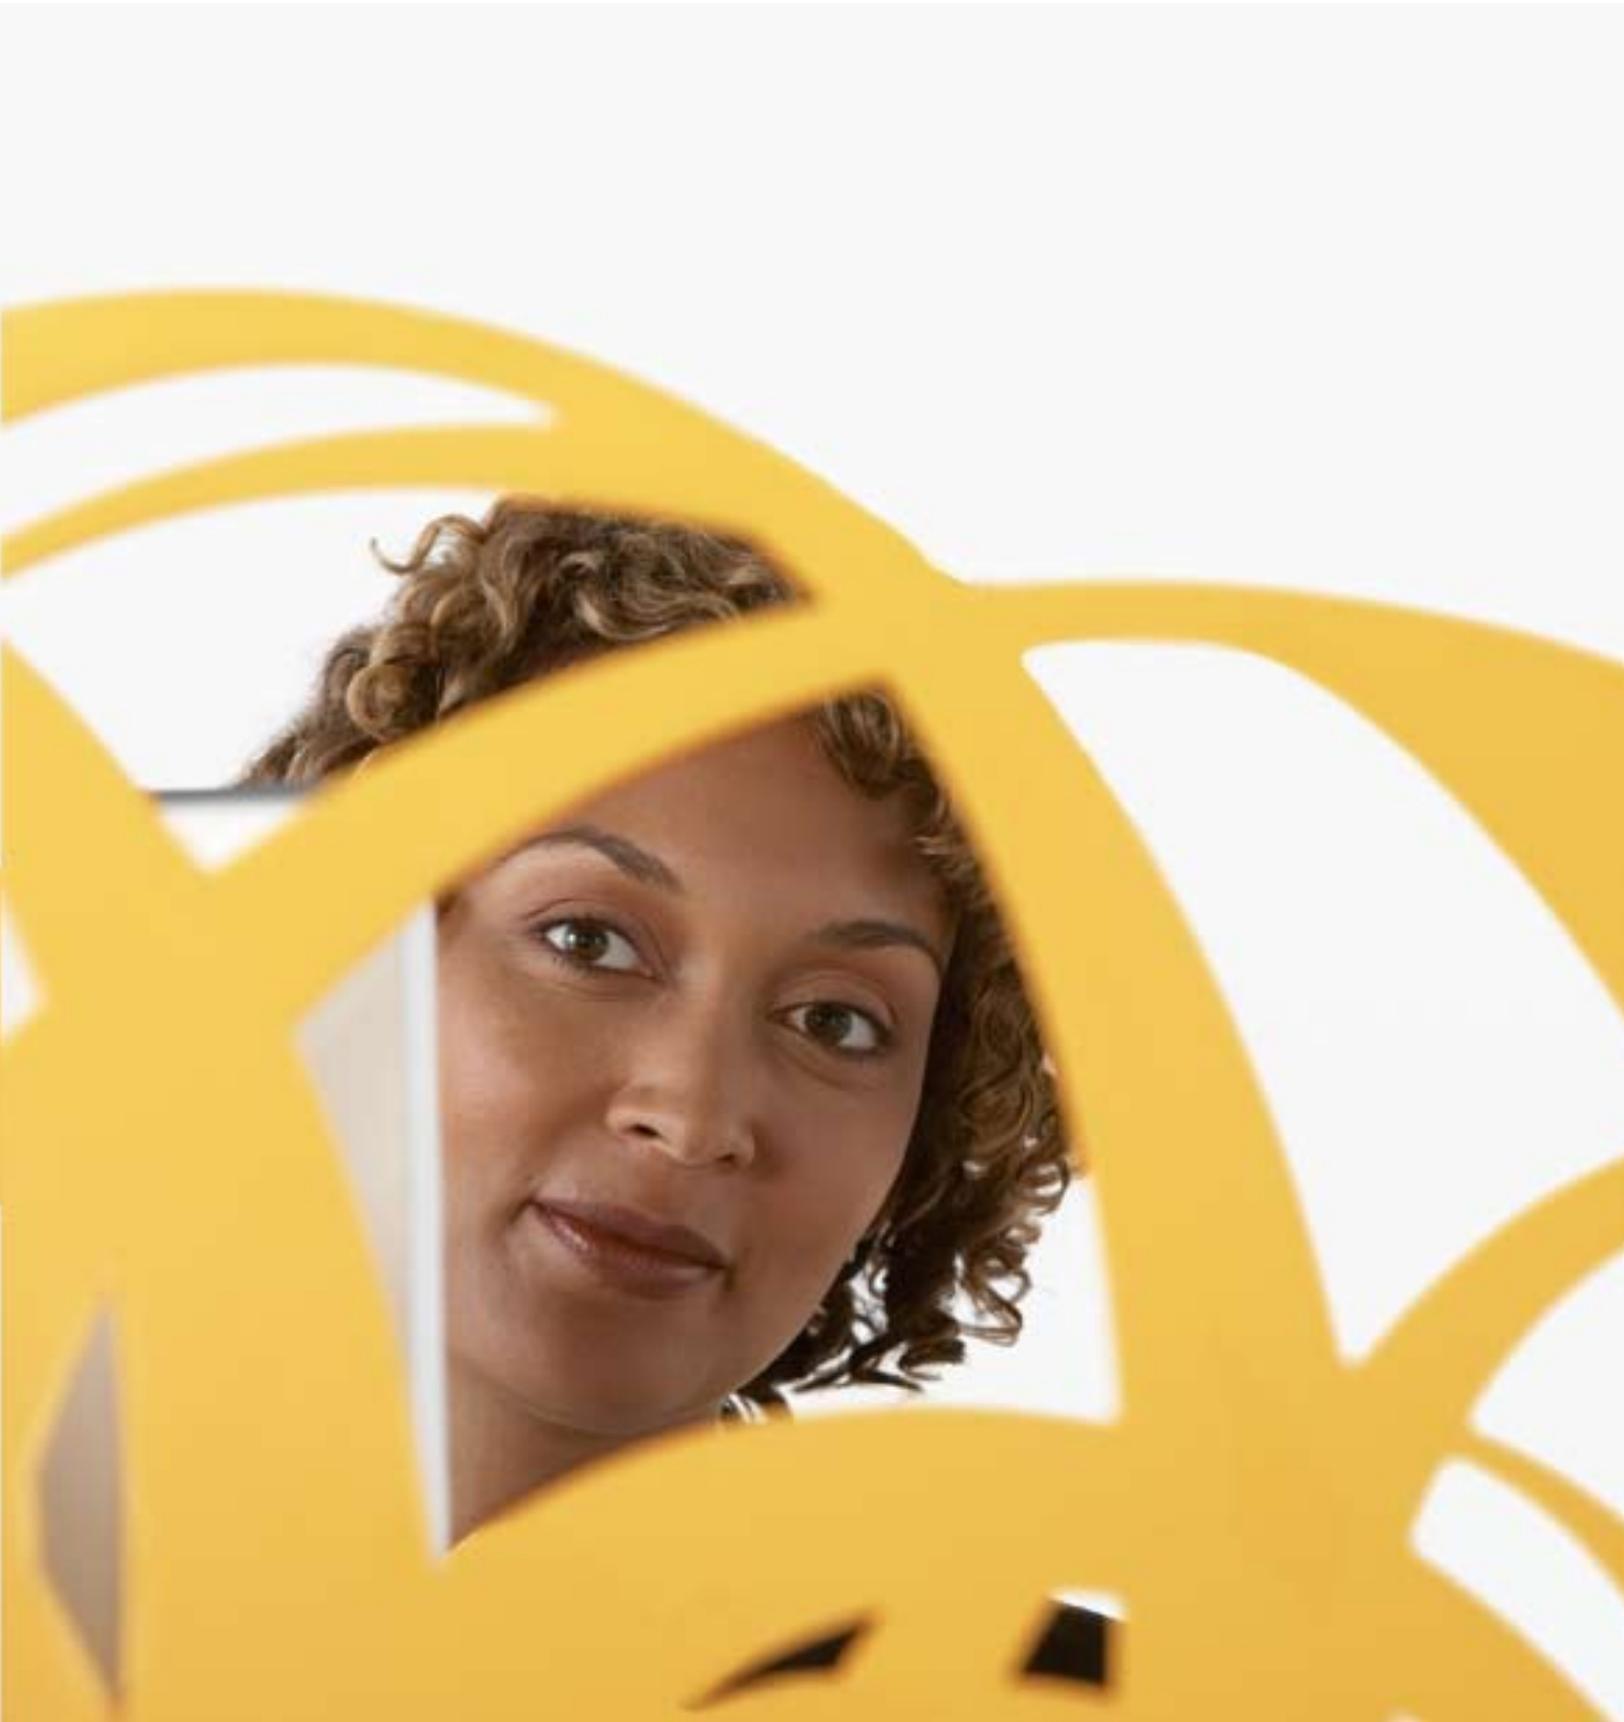

#### Touchdown Space

The Touchdown space provides an extra meeting place. A perfect spot for a quick chat with a visitor or a regular team synch up. They also provide temporary space for mobile work.

**I see you.  
You see me.  
We meet at the eyes.  
Let's talk.**

# Configurations for Every Workplace.

**Hum for total flexibility.** Hum is an adaptable solution that works in tight spots and out in the open. Hum delivers for individual needs, for different working teams, and for whole organizations. Hum is designed to help improve office-wide interactions.

---

## 4-Person Cluster

For teams that split their time evenly between collaborating and focusing. There is plenty of space to interact with team members, while the See Me screens allow you to filter distractions and focus on the task at hand.

---

**Specifications**

Surfaces/Terraces/Storage: Designer White

Gem See Me Screen/Mobile Pedestal Cushion Top: Tango Red

Chassis: Titanium

Seating: Skye/Platinum Metallic/Essence Raven

---

---

## 4-Person Cluster With Returns

For teams that spend most of their time focusing on individual tasks and occasionally host others at their desk. Central screens block visual distractions and offer ample display space. Place your work materials or personal belongings on terraces, returns, or in storage units.

---

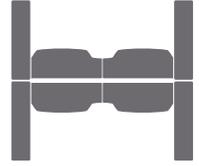

**Specifications**

Surfaces/Terraces/Storage/Chassis: Designer White

Screens/Modesty Panels: Almond Buff

Seating: Approach/Ash White/Essence White

---

---

## 6-Person Cluster

For teams that spend most of their time actively working together. Low screens with open sightlines encourage team awareness and interaction. Meet Me spaces are great for interacting without disrupting the flow of work. Touchdown and personal spaces are perfect for hosting other office visitors.

---

**Specifications**

Surfaces/Storage: Designer White

Terraces/Chassis: Titanium

Screen/Mobile Pedestal Cushion Top: Dark Blue

Seating: Approach/Ash White/Essence White

---

---

## 120° 3-Person Cluster

For teams that need to spend most of their time focusing on individual tasks and occasionally need to meet with others. Central screens block visual distractions and offer tackable display space, while the 120° shape allows the user to keep everything within reach.

---

**Specifications**

Surfaces: Fog

Terraces/Chassis: Designer White

Screens: Seal Brown

Seating: Approach/Ash White/Essence White

---

---

## 8-Person Cluster

For larger teams where everyone needs something slightly different. Personal spaces, terraces, screens, and accessories can all be selected to suit personal preference. Mid-height central screens block visual distractions without confining the workspace. Use the touchdown and personal spaces to conveniently meet with others.

---

**Specifications**

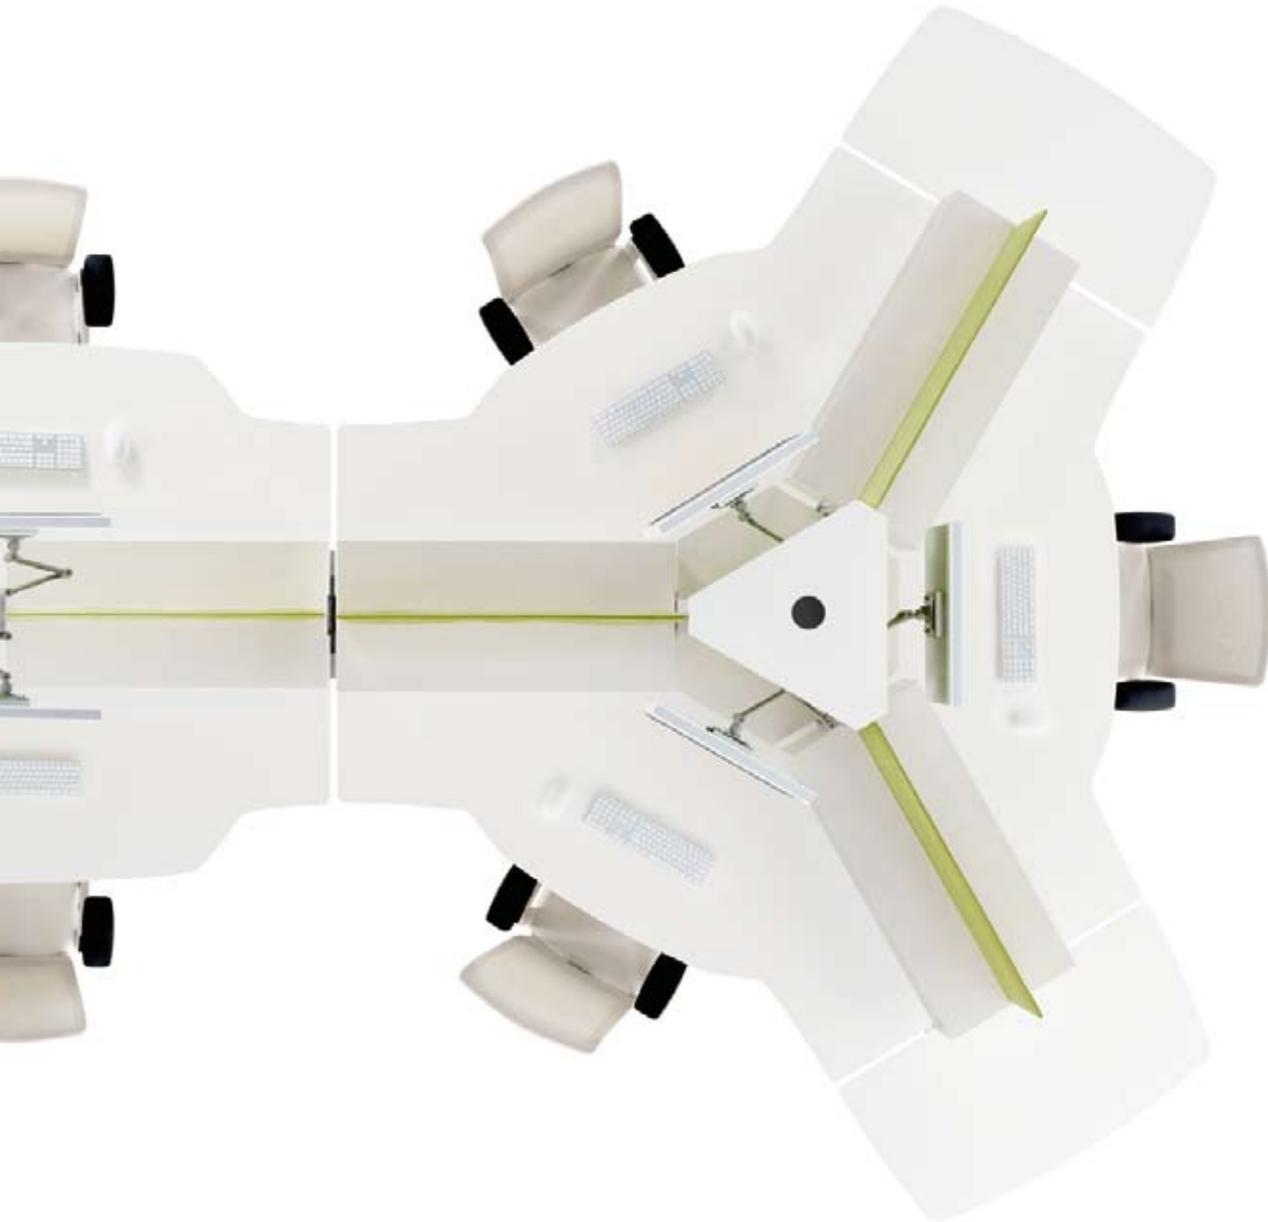

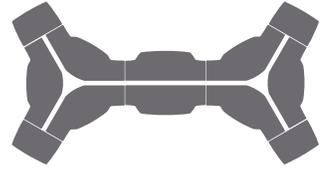

Surfaces: Designer White

Terraces: Titanium

Screens: Spinach Green

Seating: Approach/Ash White/Essence White

---

---

## Stand-Alone

For private or solitary tasks that require individuals to spend their time on focused work or managing efforts outside of the collaborative team.

---

---

**Specifications**

Surfaces: Designer White/Storm

Modesty Panel: Silver Mink

Storage: Designer White

Chassis: Titanium

Seating: Approach/Ash White/Essence White, Skye/Platinum Metallic/Essence Raven, Bingo/White

---

---

# Storage

Hum storage provides multiple configurations to accommodate all working styles and environments. Lock it up or make it public. You choose which format works for you for filing, stacking, storing, piling.

---

---

**Specifications**

---

# Sustainability

---

Hum works for the environment. Kimball Office's commitment to quality products and sustainability is reflected in Hum through its unique design, materials, and its manufacturing processes. Developed through our DfE (design for the environment) process, Hum offers a green building solution as well as a work environment for people to perform at their best.

---

## **Durability**

Hum is a durable product with a limited lifetime warranty. It is designed and constructed for longevity with the potential for a second life. It can be refurbished with new components and/or enhancements.

## **Clean Technology**

The powder coating process for metal components is virtually VOC free with nearly 0% waste, making it environmentally sound.

## **IAQ/ Indoor Air Quality**

Hum is certified to meet the USGBC LEED Indoor Air Quality requirements.

## **Hum is recyclable at end of life.**

**e-magine** it with Hum. Minds at Work.™

To help you plan, specify and visualize your new offices, ask your Kimball Office representative to bring it to life with our e-magine software. You can review finishes, floorplans and more.

**CAD Details** from Kimball Office make design easy. Just go to our website and you'll find furniture symbols that can simply be dragged and dropped into your CAD-based program. Inspiration, in the form of floorplans, renderings and product photos, is also available.

**Sustainability** is important to us. Kimball Office and our parent company, Kimball International, have a long-standing commitment to sustainable practices in all of our operational, design and manufacturing procedures. This commitment is reflected in a wide range of management decisions, from using scrap lumber and sawdust to heat our buildings, to making wise material choices, building durable products that can be reconfigured and upgraded, and working with voluntary organizations such as the Green Building Council, which is dedicated to education and promotion of sustainable building practices. At Kimball Office sustainable practices not only make good sense, they make good business.
